1 NATURE OF OPERATIONS AND GOING CONCERN

Dolly Varden Silver Corporation (the "Company") was incorporated under the Canada Business Corporation Act in the Province of British Columbia on March 4, 2011. The Company's primary business is the acquisition, exploration, evaluation and development of exploration and evaluation assets and it is considered to be in the exploration and evaluation stage. The Company's registered head office is suite 1500 – 409 Granville Street, Vancouver, BC V6C 2T1.

The Company owns interests in multiple mineral titles and claims. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves and confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to satisfy the expenditure requirements and to complete the development of properties and upon future profitable production or proceeds from the disposition thereof.

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2015, the Company had incurred accumulated losses of $10,459,209 (December 31, 2014: accumulated loss of $9,878,858) since inception, and has a working capital of $397,298 (December 31, 2014: $1,342,756) The Company expects to incur further losses in the development of its business and accordingly there is material uncertainty in the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to continue to raise adequate financing in 2015 and in the future to meet its obligations and repay its liabilities arising from normal business operations when they come due.

2 SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with IAS 1 "Presentation of Financial Statements' ("IAS 1") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The financial statements were approved by the board of directors of the Company on August 25, 2015.

(b) Basis of Presentation

The condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The comparative figures presented in these condensed interim financial statements are in accordance with IFRS and have not been audited.

These condensed interim financial statements do not include all of the notes required for full annual financial statements.

The significant accounting policies for the periods are consistent with those disclosed in the audited annual financial statements of the Company for the year ended December 31, 2014 except as specified

(Expressed in Canadian Dollars)

2 SIGNIFICANT ACCOUNTING POLICIES – (cont'd)

below. The accompanying unaudited condensed interim financial statements should be read in conjunction with the Company's audited annual financial statements for the year ended December 31, 2014.

For the comparative financial statements, the Company re-classified certain 2014 accounts in order to conform with the 2015 presentation.

(c) Accounting Standards, amendments and interpretations issued but not yet effective

The following new standards, and amendments to standards and interpretations, are not yet effective for the year ended December 31, 2015, and have not been applied in preparing these financial statements.

IAS 16 & IAS 38 – Classification of Acceptable Methods of Depreciation and Amortization clarifies that the use of a revenue-based depreciation and amortization method is not appropriated, and provides a rebuttable presumption for intangible assets. The effective date of IAS 16 & IAS 38 is January 1, 2016. The Company is assessing the impact of this new standard, if any, on the financial statements.

IFRS 9 – Financial Instruments: Classification and Measurement applies to classification and measurement of financial assets and liabilities as well as derecognition of financial instruments. IFRS 9 will replace IAS 39. The effective date of IFRS 9 is January 1, 2018. The Company is assessing the impact of this new standard, if any, on the financial statements.

6 EXPLORATION AND EVALUATION ASSETS

Dolly Varden Property

During 2011, the Company purchased the Dolly Varden Property, consisting of fee simple titles, mineral claims and mineral tenures in respect of certain lands located in the Kitsault area of British Columbia. A finder's fee of $62,500 was paid through the issuance of shares to a shareholder of the Company. The property is subject to a 2% net smelter return royalty ("NSR") of which one half (or 1% NSR) can be repurchased by the Company for $1,000,000 at any time. A company in which a former director holds an indirect 20% interest holds the 2% NSR and held a License agreement for use of nearby staging area at a monthly cost to the Company of $2,500 through to June 30, 2014. Other directors no longer have any entitlement of interest in the company that holds the 2% NSR and License agreement. The License agreement for use of the nearby staging area was extended from July 1 to December 31, 2014 at a monthly cost of $3,000; and was again extended from January 1. 2015 to December 31, 2015 at a monthly cost of $3,500, which was paid in a single installment of $42,000 on April 16, 2015.

The Company has provided deposits totalling $91,000 (December 31, 2014 - $91,000) as reclamation bonds for the property.

(Expressed in Canadian Dollars)

6 EXPLORATION AND EVALUATION ASSETS (cont'd)

Iskut Property

On January 30, 2012, the Company acquired 100% ownership in the Iskut property in Northern BC. In December 2013, the Iskut property claims were allowed to lapse and the Company wrote down the capitalized costs related to the property to $Nil. The total amount of the write down was $93,031.

Musketeer Property

On March 18, 2013, the Company entered into an option agreement to acquire a 100% interest in the Musketeer property located in Northwestern BC Canada for $1,050,000 payable over four years, subject to a 2% NSR. The Company has the option to reduce the NSR by 1% by paying $1,750,000 to the royalty holders within 3 years of acquiring the Musketeer property.

The Company paid an aggregate option payment of $350,000 in fiscal 2013 and the second option payment of $233,333 in fiscal 2014. In early 2015, the remaining two payments were renegotiated such that $100,000 is deferred until February 2018 ($50,000 from each of the 2015 and 2016 payments), with a renegotiation fee of $10,000 due with the February 2015 payment. The remaining option payments are due as follows:

February 12, 2016	$183,334
February 11, 2018	$100,000

Deferred share units ("DSU"):

The Company has a DSU plan which entitles the Directors to receive the cash equivalent of the DSUs when they retire from the Company. For the period ended June 30, 2015, the Company recognized the compensation cost for DSUs as a recovery of $40,090 (June 30, 2014 – expense of $58,106) as directors' fees with a corresponding liability recorded as accrued liabilities. The amount represents $59,616 (June 30, 2014 - $74,278) as the dollar value of directors' fees for the period, less a reduction in the total liability for the DSU plan of $139,609 (June 30, 2014 - $16,172) arising as a result of the drop in common share market value. In addition to directors' fees from the DSU plan, a total of $39,903 (June 30, 2014 - $Nil) was paid to directors during the six month period ended June 30, 2015.

9 CAPITAL DISCLOSURE

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern to pursue other business opportunities and to maintain a flexible capital structure which optimizes the cost of capital within a framework of acceptable risk. The capital of the Company consists of share capital, warrants and options.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue new debt, acquire or dispose of assets.

The Company is dependent on the capital markets as its main source of operating capital and the Company's capital resources are largely determined by the strength of the junior public markets, by the status of the Company's projects in relation to these markets and its ability to compete for investor support of its projects. The Company is not subject to any externally imposed capital requirements. There have been no changes to the Company's approach to capital management during the six month period ended June 30, 2015.

10 RELATED PARTY TRANSACTIONS

During the six months ended June 30, 2015 and 2014, the Company incurred the following amounts charged by officers and directors (being key management personnel) and companies controlled and/or owned by officers and directors of the Company in addition to the related parties transactions disclosed elsewhere in these financial statements:

(Expressed in Canadian Dollars)

10 RELATED PARTY TRANSACTIONS (Cont'd)

	Six months ended June 30, 2015	Six months ended June 30, 2014
Costs included in exploration and evaluation assets	$ 73,500	$ -
Directors' fees (dollar value before share price adjustment)	99,518	74,278
Management & Consulting fees	111,164	119,975
Share-based compensation	70,950	-
	$ 355,132	$ 194,253

At June 30, 2015, included in accounts payable and accrued liabilities is $242,449 (December 31, 2014 - $327,724) owed to directors, an officer, and a company owned by a former director and officer of the Company. These amounts are unsecured, non-interest bearing and are due on demand.

11 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments include cash, receivables, deposits, and accounts payable and accrued liabilities.

Financial instruments

Cash and deposits are measured at fair value using level one as the basis for measurement in the fair value hierarchy. The carrying value of receivables, and payables and accrued liabilities, approximate fair value because of the short-term nature of these instruments.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company's credit risk is primarily attributable to cash and receivables. The Company has no significant concentration of credit risk arising from operations. Cash consists of bank balances and Guaranteed Investment Certificates at reputable financial institutions, from which management believes the risk of loss to be remote. Financial instruments also included receivables from government agencies. The Company limits its exposure to credit loss for cash by placing its cash with high quality financial institutions.

11 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Cont'd)

Liquidity risk

The Company's ability to remain liquid over the long term depends on its ability to obtain additional financing through the issuance of additional securities, the entering into credit facilities or the entering into joint ventures, partnerships or other similar arrangements. The Company's ability to continue as a going concern is dependent upon its ability to continue to raise adequate financing in 2015 and in the future to meet its obligations and repay its liabilities arising from normal business operations when they come due. As at June 30, 2015, the Company had a cash balance of $667,759 to settle current liabilities of $365,956. The Company's current policy is to invest excess cash in demand Guaranteed Investment Certificates issued by its banking institutions.

Interest rate risk

The Company has cash balances subject to fluctuations in the prime rate. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Management believes that interest rate risk is remote as investments are redeemable at anytime and interest can be earned up to the date of redemption.

Price risk

The Company is exposed to price risk with respect to commodity prices. The Company's future mining operations will be significantly affected by changes in the market prices for silver. Precious metal prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for commodities, the level of interest rates, the rate of inflation, investment decisions by large holders of commodities, and stability of exchange rates can all cause significant fluctuations in commodity prices.

12 SUBSEQUENT EVENTS

Subsequent to the period-end, 350,863 warrants expired unexercised.

On August 24, 2015, the BC Mining Exploration Tax Credit ("BC METC") for 2014 that was outstanding at June 30, 2015, was received by the Company.

13 COMMITMENT

The Company is obligated to spend $1,510,168 in eligible flow-through expenditures by December 31, 2015.
